Good afternoon Sharon,

I hope that you are safely out of the weather. On behalf of Western Plume parties, IMC, ITC and Barouh Eton, I enclose our comments to the Consent Decree and SOWs. The comments are for settlement discussion purposes only, and our clients are not agreeing to undertake any work at this time, including the OU1 RD or the OU3 RI/FS, particularly given the lack of unanimity among the PRPs.

While we understand that EPA had requested a single set of comments, the PRPs have not reached agreement on many of the issues. Therefore, we could not submit a single set of comments at this time, but will work toward trying to reach agreement in areas where possible in advance of the February 4, 2014 meeting. However, in an effort to keep with the EPA's deadline, the various groups are submitting their individual comments so that you can review the various edits/issues, while we continue to discuss.

David Batson will be reaching out to you to further explain.

If you have any questions, please do not hesitate to contact me, Bob Lucic, John Peltonen or Tom Smith.
